Response to Amendment

Applicants' amendment filed on 11/28/2004 has been entered on November 08, 2004.

Therefore claims 1,2,8 and 9 as amended by the amendment and claims 3-4,10, 17, 19 and 24-32 as previously recited are currently pending in the Application.

Claims 5-7,11-16,18,20-23 and 33-34 have been cancelled.

Allowable Subject Matter

Claims 1-4,8-10, 17, 19 and 24-32 are allowed.

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which include a semiconductor device comprising a source region, a channel region, a drain region a gate electrode disposed above the channel region, and a drift region disposed adjacent to the channel region and extending to and below the drain region. Wherein the drift region is formed shallowly at least below the gate electrode but formed deeply in a neighborhood of the drain region wherein the two drift regions have two dopant concentrations and wherein the first dopant concentration is higher than the second dopant concentration.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
